

URGENT: Iosco County residents, the Iosco County Board of Commissioners declared a STATE OF EMERGENCY and we are asking the Governor to do the same. But we need your help. We have to submit damage and estimate reports within a short time frame. PLEASE, if anyone has any pictures or video of any damaged roads, bridges, culverts, ditches or flooding damage, please send the information to [flood2020@ioscocounty.org](mailto:flood2020@ioscocounty.org) with a detailed description of the location. This will help immensely having all of the information in one location that we can submit to the State demonstrating our need for FEMA relief dollars. Thank you and PLEASE SHARE!!
